# MULTI-TOOL SYSTEM

## WHAT IS A MULTI-TOOL?

The Dremel high speed Multi-Tool is an entire system of functional options that centre around a core tool. The Dremel Multi-Tool System comprises of tools, accessories (including EZ SpeedClic) and attachments. This system makes the tool multi-functional, versatile and easy to use. Whether you are an experienced craftsman or beginner this system is perfect for anyone looking for precision for a wide variety of applications.

## ACCESSORIES

Dremel offers you a wide variety of high quality accessories for different applications. To help you select the right accessories, Dremel has created a colour coding system: every colour represents a category of applications. No matter which materials you want to work with, Dremel has a solution for you. The Dremel exclusive EZ Speedclic range allows quick, easy and keyless accessory changes.

## ATTACHMENTS

The Dremel line has many different attachments which makes your Dremel Multi-Tool more versatile. The Dremel attachments expand the usability of your Multi-Tool, so you can do your job with even more precision and ease. Dremel offers attachments to rout, control, cut, saw, sharpen and to reach.

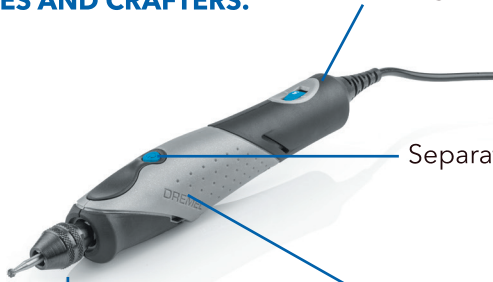

## MULTI-TOOLS - CORDED

### DREMEL<sup>®</sup> STYLO+

**VERSATILE. PRECISE. MADE FOR CREATIVES AND CRAFTERS.**

Variable speed for a wide range of application such as engraving, carving, sanding, grinding, cleaning and polishing

Separate on/off control for ease of use

Light weight, small with Ergonomic grip for comfort and control

Multichuck to quickly change accessories regardless of their size

### DREMEL<sup>®</sup> 3000

**QUICK. COMPACT. ALL-ROUND.**

Variable speed - 10,000 - 33,000 RPM: more comfortable and better control when handling

Collet lock: for assisting accessory changes

Integrated hang hook: for hanging the tool on the tool holder or near the project

Innovate EZ Twist Nose Cap: no wrench required for changing accessories

## MULTI-TOOLS - CORDED

### DREMEL 4250 NEVER-ENDING ENERGY.

Secured lock button to avoid accidental activation when the tool is running

The 175W motor provides maximum power controlled by a fully variable RPM range from 5.000 to 35.000 RPM

EZ TWIST  
Nose Cap  
for quick and  
easy accessory  
changes

Ergonomic soft-grip, lower  
noise and vibration provides  
higher comfort whilst working -  
even during long DIY sessions

Improved fan design  
for cooler running  
when tackling heavy  
duty applications for  
extensive periods  
of time

Compatibility  
with all Dremel  
accessories and  
attachments

## MULTI-TOOLS - CORDLESS

### DREMEL® 8220 CORDLESS. LUMINOUS. MAX POWER.

The separate on / off switch with collet protection prevents accidental activation of the collet lock

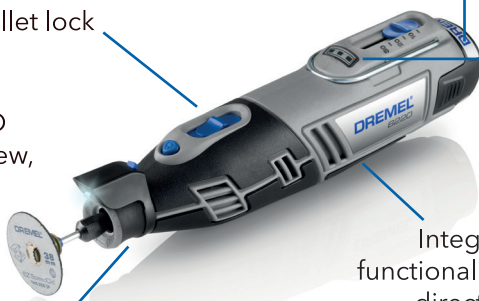

360 ° rotatable LED light - for a clear view, even in dark areas

Innovate EZ Twist Nose Cap: no wrench required for changing accessories

Complete demanding DIY projects with ease - thanks to the compact, powerful 12 V Li-Ion battery with only 1 hour charging time. From 5,000 RPM to 35,000 RPM

Recognize the charging status of your tool at a glance from the battery display with 3 LEDs

Integrated with direct stop functionality so the motor stops directly once you turn it off

### DREMEL® LITE EASY-TO-USE. VERSATILE. USE ANYWHERE.

Easily adjust between the four different speeds with the variable slide switch. 8,000 - 25,000 RPM

Innovate EZ Twist Nose Cap: no wrench required for changing accessories

The ergonomic 360-degree soft grip provides comfort and precision as well as the cordless design

The battery indicator light notifies you when the battery needs to be charged. Recharge with the USB charger and dedicated plug

The 3.6V rechargeable lithium-ion battery (2Ah) provides cordless convenience & peak performance

Compact due to it's small size and low sound making it ideal for lighter duty applications

## MULTI-TOOLS - CORDLESS

### DREMEL 8260

**UNMATCHED POWER AND RUNTIME,  
SMARTER THAN EVER**

Brushless motor for maximum performance  
Higher Torque, Higher Power - Dremel's Most  
Powerful Multi-Tool

Battery Life Indicators  
Displays remaining battery life.  
Red Warning LED  
Notifies tool overload

Bluetooth LED  
Confirms  
connection to  
Dremel App

Innovate EZ Twist  
Nose Cap: no wrench  
required for changing  
accessories

Versatility to the Max  
Able to perform the widest range of  
applications, compatible with ALL  
Dremel accessories & attachments

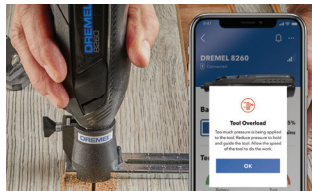

100% more total run-time as a  
result of a more efficient motor  
and increased battery capacity

World's First Brushless Connected Rotating Multi-Tool  
Control, customise & manage your Multi-tool through  
Bluetooth connectivity to the Dremel App

Monitor battery capacity  
percentage, tool &  
battery temperature.

Set the tool speed via the  
App with assistance from  
the interactive materials  
guide.

Receive overheat and  
overload alerts with  
tips on prevention and  
resolution.

## PET GROOMING TOOL - CORDLESS

### DREMEL®

#### PET NAIL GROOMING KIT

Safe and quiet pet nail grinder.

The nail dust guard allows for limited mess as it catches the dust as the nail is grinded

Covers all rotating parts for safe use

Use everywhere, operates on 4 AA batteries (excluded)

Easy to use with two operating speeds

Smooth finish with no risk of cutting too deep. Includes replenishable sanding discs

4xAA (exkl.)

Variable

7.000-18.000

0,27 kg

## MULTI-TOOL ACCESSORIES

### CARVING / ENGRAVING / ROUTING

Dremel offers high quality carving, engraving and routing accessories for many different applications. Carving and engraving bits are the largest category of Dremel accessories. Their overall sharpness and durability allow them to last a long time when used properly. Router bits are used for edging and grooving wood, and making things like letter signs and picture frames.

### GRINDING / SHARPENING

The accessories in this category have many practical, do-it-yourself applications. They accomplish the everyday, money-saving things like sharpening mower blades, boat propellers and chainsaw blades. They can also deburr, smooth, grind and clean a variety of materials around the home and garden.

### CLEANING / POLISHING

Dremel cleaning and polishing accessories include brushes, felt accessories and rubber points to work on steel, aluminium, brass, silver, gold and plastics.

### CUTTING

Dremel provides two types of cutting accessories for any cutting job; Cut-off wheels and cutting bits.

- Cut Off wheels Make it easy to cut or slot bolts, screws, sheet metal, thin wood and plastic. Fiberglass reinforced cut-off wheels are for tough application.
- Cutting bits are used with the Dremel cutting guide and cut in a manner similar to spiral saw blades in any direction.

### SANDING

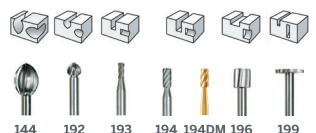

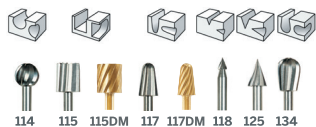

Dremel sanding accessories include sanding drums, bands, discs, flapwheels and abrasive buffs to remove and smoothen material.

### COLLETS / MANDRELS / MISCELLANEOUS

This category features the miscellaneous extras, like drill bits, collets, mandrels and a multi-chuck. Mandrels are used to mount different accessories, like felt polishing wheels or cut -off wheels. Collets offer the most precise way to hold an accessory in a Multi-Tool. Even at high speeds, under maximum pressure, collets will stay tight.

# DREMEL INNOVATION - EZ SYSTEM

## EZ SPEEDCLIC

EZ SpeedClic is Dremel's unique quick-change system for rotary tool accessories. The high quality EZ SpeedClic accessories allow for quick, easy and keyless accessory changes, which means less time changing accessories and more time to work on your project for faster completion. These accessories are available for a wide range of applications from cutting to sanding and can be used in a diverse range of materials.

**DREMEL** EZ  
SpeedClic

## EZ TWIST

There is no need for a wrench to tighten and loosen the collet when changing accessories, the wrench mechanism is integrated in the nose cap of the tool.

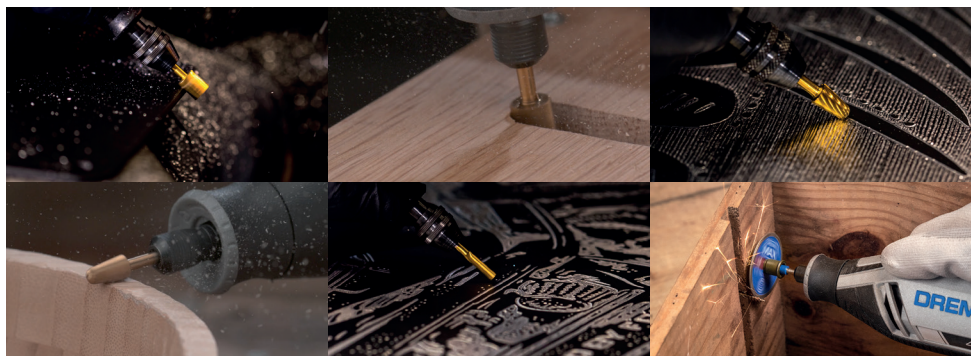

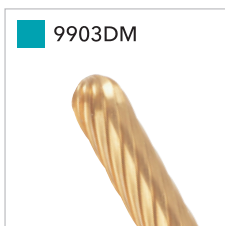

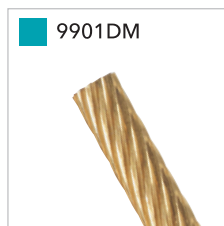

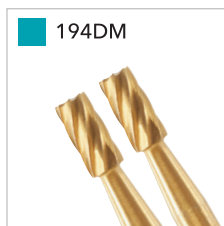

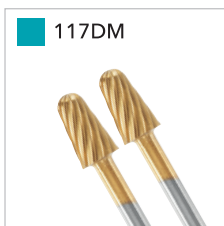

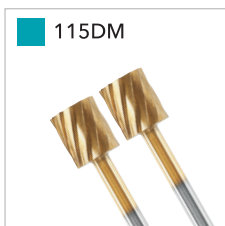

# DREMEL INNOVATION - MAX ACCESSORIES

## MAX ACCESSORIES

Dremel Max accessories are ready for your demanding DIY project. Built to deliver long lasting performance and durability the accessories are ready to tackle the toughest project material and applications project after project.

Overview of the full range of Dremel Max accessories.

Find out more about the Dremel Max accessories: [www.dremel.com](http://www.dremel.com)

## MULTI-TOOL ATTACHMENTS

### Workstation (220)

The combined Drill Press and Tool Holder is the perfect solution for stationary working with your Dremel at any angle you want to.

- Holds tool horizontally for polishing, grinding and sanding.
- A holder for the tool to use without flex shaft.
- Accessory storage.
- Depth markings for consistent depth adjustment.

### Flex-Shaft (225)

Ideal attachment for precise, detailed work or hard to reach places. Comfort grip handpiece allows fingertip control to carve, engrave, cut, grind, sand, polish and more. More comfort and less fatigue in longer lasting projects due to small hand piece.

- Integrated shaft lock button for quick and easy accessory changes.
- Comfort and flexibility during use.
- Quick connect attaches your Dremel tool in seconds.

### Flex-Shaft Tool Holder (2222)

Conveniently suspends your Dremel Multi-Tool above your workbench. Perfect for use with the Flexible Shaft attachment.

- Clamps to workbenches up to 42 mm thick, and adjusts in height from 300 to 1070 mm.
- Store extra bits on base.

## MULTI-TOOL ATTACHMENTS

### Plunge Router (335)

Converts your Dremel tool into a plunge router to rout circles, signs and inlay work, decorative edges and to rout parallel to an edge.

- Plunge-lock in handle - simply turn handle to lock/unlock.
- User can define fully variable depth stops for quick, consistent adjustment of depth.
- Edge guide and circle guide to rout straight lines and perfect circles.

### Multipurpose Cutting Kit (565)

Provides controlled cutting in a variety of materials in any direction.

- Easily attaches to your Dremel tool.
- Easy depth adjustment up to 19 mm material thickness.

### Wall Tile Cutting Kit (566)

Provides controlled cutting in ceramic wall tiles in any direction.

- Easily attaches to your Dremel tool.
- Easy depth adjustment up to 19 mm material thickness.

## MULTI-TOOL ATTACHMENTS

### Wall & Floor Grout Removal Kit (568)

Specially developed for removing grout from between wall and floor tiles.

The risk of chipping your tiles is greatly reduced compared with manual chiselling.

- Easy depth adjustment.
- Guide keeps bit centered between tiles.

For compatibility please check the compatibility overview on the rear of the packaging.

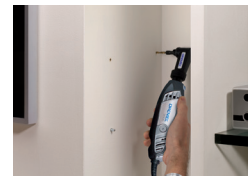

### Right Angle Attachment (575)

Designed to use accessories in right angle for hard to reach places.

- Ball bearings and bevel gears provide smooth and cool operation and guarantee longer lifetime.
- Coupling system allows to place the attachment in 12 different directions on your Dremel tool.
- Quick connect attaches your Dremel tool in seconds.

### Shaping Platform (576)

The Dremel Shaping Platform enables you to sand and grind at perfect 90 and 45 degree angles.

With the included sanding mandrel, sanding band and grinding stone you can start working straight away.

## MULTI-TOOL ATTACHMENTS

### Detailers Grip (577)

The Dremel Detailer's Grip attachment enables you to have even better control of your Multi-Tool when doing DIY, hobby and craft projects.

With the included stencil template and engraving cutter you can begin working with the detailer's Grip attachment and your Multi-Tool straight away.

### Mini Saw Attachment (670)

Transforms your Dremel tool into a precision circular saw for fine, clear and straight cuts in all sorts of wood with a max working depth of 6.4 mm.

- Perfect for laminate and wood flooring or thin wood plates.
- The safety guard and lower guard makes it safe to use.
- The guide allows to make straight cuts.
- This Mini Saw Attachment is easier to use than a hand saw, more precise than a jig saw and fits in tighter spaces than a circular saw.

### Chainsaw Sharpening Attachment (1453)

The fastest, easiest way to sharpen dull, slow-cutting chain saws.

- Easily attaches to your Dremel tool.
- Works with a variety of different chain sizes.

For compatibility please check the compatibility overview on the rear of the packaging.

## MULTI-TOOL ATTACHMENTS

### Line & Circle Cutter (678)

Makes perfect holes and straight cuts and easily connects to your Dremel tool.

- Included cutting bits are perfect for cuts in drywall, wood and laminate.
- Maximum cutting diameter is 30 cm.

### Multi-Vise (2500)

The Dremel 3-in1 Multi-Vise. Stationary vise, stand alone clamp & Toolholder. Clamps to any workbench, table or countertop

- Rotates 360° and tilts 50°. Allows approaching the workpiece from a comfortable angle.

Jaws may be used with base unit or detached for use as a stand-alone bar clamp.

- Easily accommodates larger work pieces.

Stabilises oversize objects and protect delicate pieces from damage.

- Allows round and odd-shaped objects to be held securely.

Allows quick removal of objects from jaws.

## COMPACT TOOL SYSTEM

### WHAT IS A COMPACT TOOL?

Our compact tool system consist of many tools to help you tackle your DIY, cleaning and creative projects. From soldering to gluing to cutting, the possibilities are endless. This system includes the Dremel Versa which is our High Speed Power Cleaner functioning as an oven cleaner, bathroom tile or shower glass cleaner, shoe cleaner and much more.

### ACCESSORIES

For every compact tool, whether it's the Versa cleaning tool, to the glue gun, we have accessories for almost all materials / applications you want to do.

### ATTACHMENTS

In the Compact Tool System, we offer a small range of one attachment which is for the DSM20. The Cutting Guide. This attachment helps to enhance the cutting capabilities of the Dremel DSM20.

## COMPACT TOOLS

### DREMEL<sup>®</sup> VERSA

High Speed Power Cleaner - All your Cleaning Supplies in One

Easy power button  
The Versa is designed to shut off if too much pressure is applied

Versatile  
Perfect for both wet and dry uses

USB charging system  
A blue light will illuminate while charging, which will turn off once fully charged 

Easy pad changing system  
Align either the backing pad or the brush to the threads on the tool and turn clockwise. For use of a cleaning pad, press the loop side of the pad to the base of the backing pad

### DREMEL<sup>®</sup> VERSATIP

Butane iron - The cordless 6-in-1 gas-torch for hot cutting, soldering, pyrography and more

Flame lock-on mechanism keeps the torch on a continuous flame

Integrated ignition trigger  
With safety lock for easy start up

Refillable tank  
Powered by liquid butane lighter fuel, full tank can burn for up to 75 minutes

Cordless  
ideal for hobby & craft projects

6 accessories included

## COMPACT TOOLS

### DREMEL® VERSAFLAME

**Butane torch - The most versatile stationary burner for both DIY and hobby projects**

Butane torch flame allows for detailed open flame work

Cordless or stationary heat gun with detachable foot, use anytime anywhere

Safest mini blow torch with flame lock button for continuous hands-free use and child safety lock mechanism

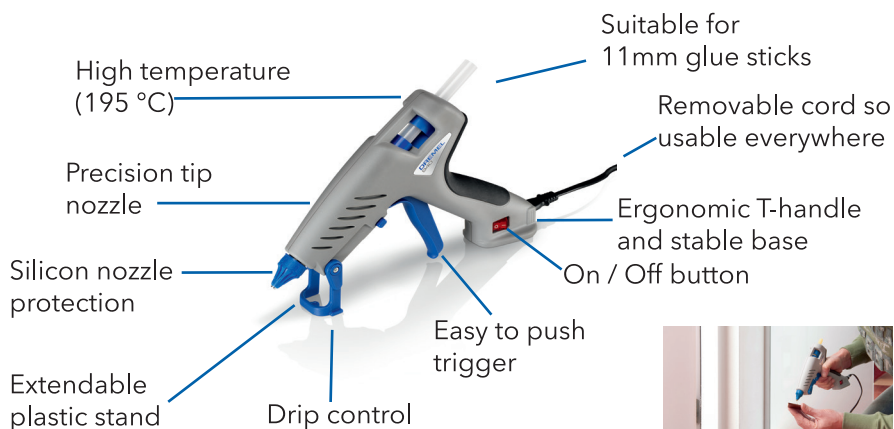

Gas torch tank capacity of 22 g - longer use, full tank lasts up to 75 minutes at maximum capacity.

Temperature:  
1200C (open air)  
680 - 1000C (hot air)  
550C (tips)

---

### DREMEL® GLUE GUN 940

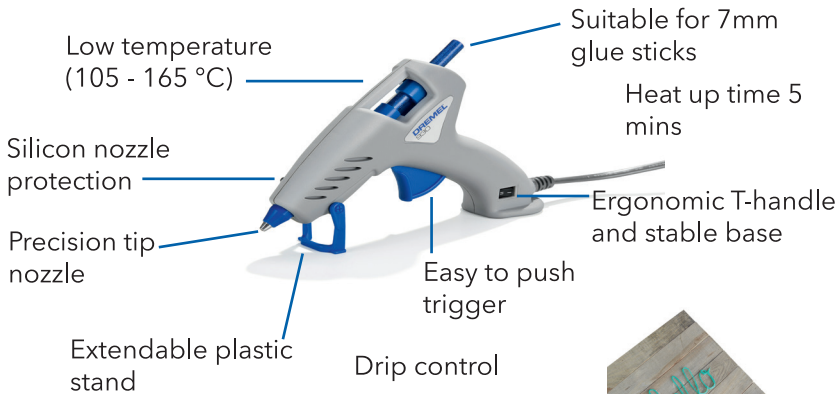

**High temperature glue gun - For all indoor and outdoor DIY applications with the biggest glue output**

## COMPACT TOOLS

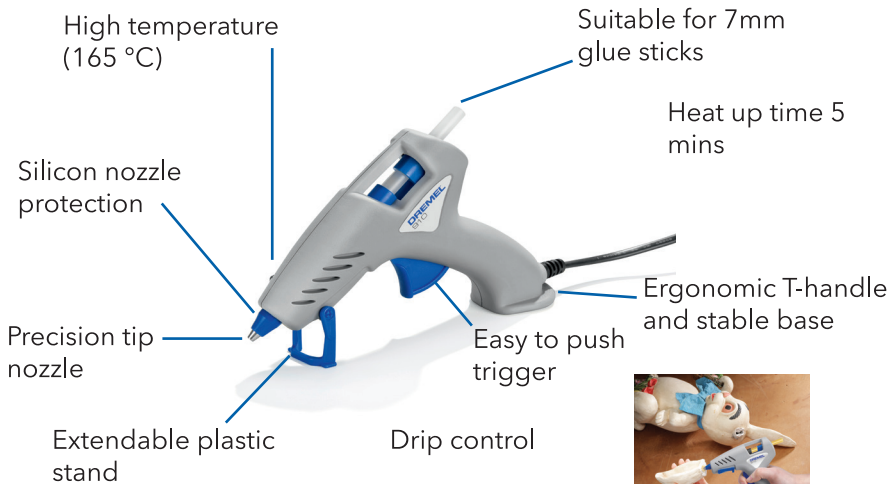

### DREMEL® GLUE GUN 930

**Dual temperature glue gun - Bring your creativity to the next level with colourful and precise gluing**

### DREMEL® GLUE GUN 910

**Compact glue gun - For intricate and quick gluing in all light DIY jobs**

## COMPACT TOOLS

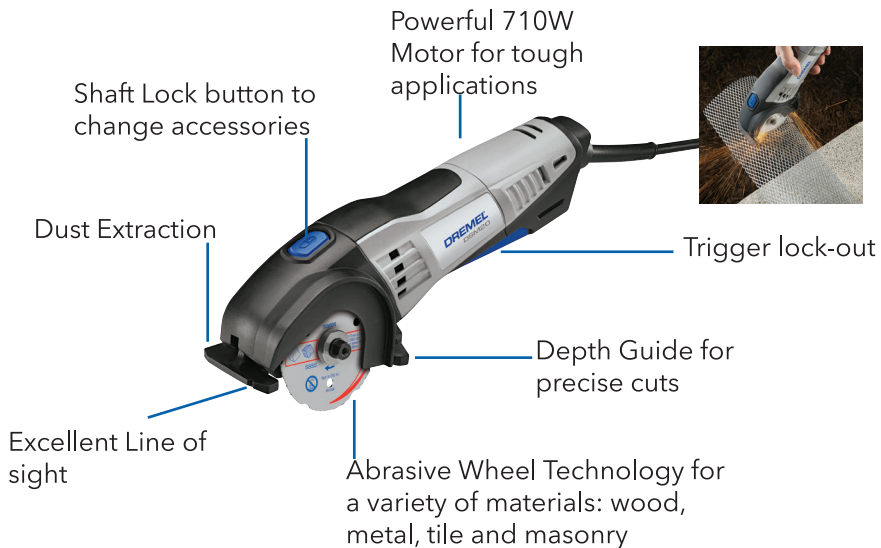

### DREMEL ENGRAVER

**Engraver - Precisely engrave a wide variety of materials with optimal depth control**

### DREMEL DSM20

**Compact saw - For precise, clean and straight cuts with clear line of sight**

## COMPACT TOOLS - ACCESSORIES & ATTACHMENTS

### VERSA ACCESSORIES

#### Kitchen Scour Pad (PC367)

The Kitchen Scour Pad is ideal for removing dirt and food residue from pots and pans and other surfaces.

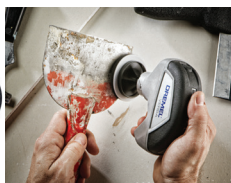

#### Polishing Pad (PC366)

Multipurpose Polishing Pad perfect for gently polishing metals, leather and more without leaving any scratches.

#### Extreme Scour Pad (PC368)

The Extreme Scour Pad is perfect for cutting through and removing tough stuck-on messes.

#### Foam Pad (PC362)

Multi-purpose accessory for hard surfaces including counter tops, floors, doors, walls, shoes and more.

# COMPACT TOOLS - ACCESSORIES & ATTACHMENTS

## VERSA ACCESSORIES

### Non-Scratch Pad (PC363)

Great for surfaces that require scrubbing without scratching, such as pots, pans, sinks, drains, tubs and more.

### Bristle Brush (PC364)

Perfect for detailed areas or objects that require heavy-duty cleaning, such as grout, grill exteriors, car interiors, exteriors and more.

### Heavy Duty Pad (PC361)

Aggressively removes stubborn scum and baked-on food, as well as small surface scratches on your wood furniture.

## COMPACT TOOLS - ACCESSORIES & ATTACHMENTS

### VERSATIP & VERSAFLAME ACCESSORIES

#### Soldering Tip 201

Used to solder, weld, carve, engrave in various materials such as wood, leather and different metals.

The fine point of the tips allow for more precision and control in your soldering work

\* Compatible with the VERSAFLAME

#### Cutting Knife 202

Ideal for cutting, carving and burning decorative designs in wood and leather. Other materials include cutting rope, wax, soap, and foam board.

#### Pyrography set 204

Versatip pyrography tip set can be used to apply different pyrography motifs onto wood and leather. Applications include engraving, drawing, shading, striping and calligraphy.

### ENGRAVER ACCESSORIES

#### Carbide Engraving Tips 9924

Designed for normal engraving applications  
Create fine lines to deep grooves

#### Diamond Engraving Point 9929

Designed for hard-surface engraving applications  
and continuous use

# COMPACT TOOLS - ACCESSORIES & ATTACHMENTS

## DSM20 ACCESSORIES

### Metal and Plastic Cutting Wheel (DSM510)

The DSM510 is a reinforced type 1 abrasive cutting wheel which is designed to cut a variety of materials such as metal and plastic.

### Diamond Tile Cutting Wheel (DSM540)

The DSM540 is a diamond abrasive wheel which is designed for cutting hard materials such as marble, concrete, brick, porcelain and ceramic tile.

## COMPACT TOOLS - ACCESSORIES & ATTACHMENTS

### Multipurpose Carbide Flush Cutting Wheel (DSM600)

The DSM600 is a multipurpose carbide flush cutting disc. This offset abrasive cutting wheel with carbide grit is designed to cut (straight, plunge and flush) wood and other soft materials.

### Multipurpose Carbide Cutting Wheel (DSM500)

The DSM500 is a multipurpose carbide cutting disc. This abrasive cutting wheel with carbide grit is designed for doing straight and plunge cuts in wood and other soft materials.

### Masonry Cutting Wheel (DSM520)

The DSM520 is a masonry cutting wheel. This reinforced type 1 abrasive cut-off wheel is intended to make cuts in masonry and stone.

## DSM20 ATTACHMENT

### Cutting Guide (DSM840)

This attachment helps to enhance the cutting capabilities of the Dremel DSM20. Mitre, bevel and straight cuts are easily achieved in base-board, trim or molding using the DSM840 Cutting Guide.

## BENCHTOP TOOL SYSTEM

### WHAT IS A BENCHTOP TOOL?

Dremel's benchtop tools help to provide more comfort and ease whilst getting the hardcore jobs done.

Whether its cutting a piece of wood in half or tackling a project that requires both power and precision, the Benchtop tools are an essential to your tool box.

### ACCESSORIES

Offering blades to cut both metal and wood, the Moto-Saw accessories are great for detailed and straight cuts with 4 accessories to choose from!

Multi-Tool accessories are compatible with the Dremel FortiFlex. Making it ideal to use in any project that you need. From sanding to engraving with complete ease.

### FORTIFLEX

The Dremel Fortiflex is a high quality precision tool, consisting of a powerful hanging motor (300W), a patented heavy duty flexible shaft, an exchangeable precision hand piece and a foot pedal for variable speed control (0-20.000rpm). This makes it the ideal tool for stationary projects, like woodworking, jewellery making, stone working, car restoration, or any project where a combination of power and precision is required. The Dremel Fortiflex: power meets precision.

### MOTO-SAW

The Dremel Moto-Saw is a compact and easy-to-use scroll saw for making detailed cuts in different materials. With its range of different saw blades, the Dremel Moto-Saw can handle many different materials easily. Thanks to its detachable fretsaw, it can be used not only stationary but in-hand anywhere. This userfriendly scroll saw is not only easy to store and set-up, but also easy to operate. The Dremel Moto-Saw is the most user-friendly scroll saw.

## BENCHTOP TOOLS

### DREMEL MOTO-SAW

**Compact scroll saw with detachable fretsaw - Make detailed cuts easily**

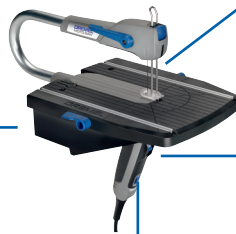

Dust port adapter keeps line-of-sight clear and work space clean

Fast-clamp base attaches to various tables, benches and surfaces

Variable-speed control for optimal cutting in a variety of materials

Auto tensioning quick-change mechanism for easy accessory change and optimal blade tensioning

Detachable coping function for handheld use to take the tool to the work piece

### DREMEL FORTIFLEX

**Heavy duty flexible shaft - Work precisely for extended periods of time with complete control over your stationary projects**

High torque in lower speed range

Variable shank diameter (0.3 - 4.0mm) is suitable for all high quality Dremel accessories

Ultimate precision through low collet run-out

Variable speed control through foot pedal

High powered 300W motor with variable speed 0 - 20,000rpm  
Separate foot pedal for single-handed use with anti-slip strips on bottom

### MOTO-SAW ACCESSORIES

#### Fine Wood Cutting Saw Blade (MS52)

Saw blade for detailed cuts in wooden materials. This blade has 7 teeth per centimeter ensuring the finest cutting results.

#### General Purpose Wood Cutting Saw Blade (MS51)

Saw blade for straight and large diameter curved cuts in wooden and plastic materials. This blade has 6 teeth per centimeter ensuring a good balance between speed and precision.

#### Metal Cutting Saw Blade (MS53)

Saw blade for cutting soft sheet metal. This blade has 10 teeth per centimeter ensuring excellent cuts.

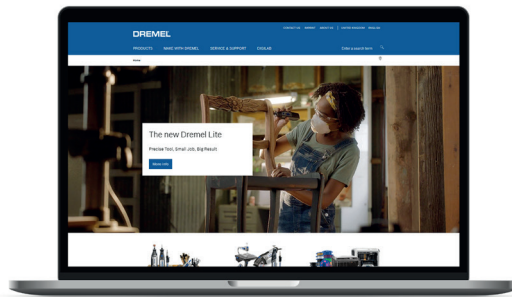

#### Side Cutting Saw Blade (MS50)

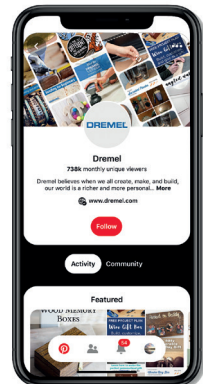

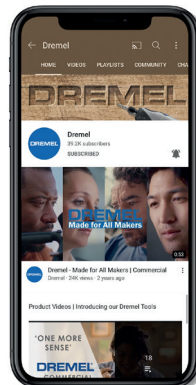

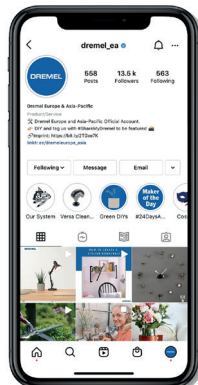

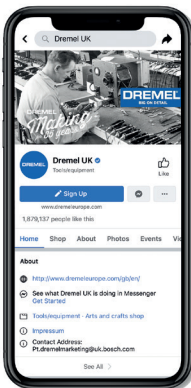

Saw blade for longer cut offs, which are normally limited by the throat depth of the tool. In terms of technical specifications, this blade is identical to the MS51 General Purpose blade, however, its top and bottom parts are 90 degrees twisted. This twist allows a lateral material feed either from left or right, resulting in technically infinite cuts.

# INSPIRATION

Find product information, how to's, project inspiration and more on our website and social channels.
